**Notice to Residents of Rolling V Ranch WCID No. 2**

Dear Residents,

Please see this message distributed on behalf of the Rolling V Ranch Water Control and Improvement District:

Rolling V Ranch Water Control and Improvement District is terminating Drought Stage 4 (Emergency) and resuming Drought Stage 3 (Water Warning), effective immediately. We ask that residents please resume the irrigation schedule that was in effect prior to the damage to WCSUD's system.

***Irrigation watering is allowed for a maximum of one day per week on the schedule set forth below. Watering is to occur between 11pm and 3am on the watering day (e.g., for an odd street number, watering may commence at 11:00 pm on Tuesday night and continue through Wednesday morning until 3:00 am) and is recommended for 10 minutes per zone. Please ensure that the clocks on irrigation controls are set correctly, and that the watering schedule matches these times and the schedule set forth below. If you need assistance resetting your irrigation controls please contact your builder and they will be ready to assist you.***

***Tuesdays: Bluestem odd street numbers  
Wednesdays: Bluestem even street numbers***

Thank you,

Rolling V Ranch WCID No. 2
